18579_4	Check Copy keyboard, right click works with Email field	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Copy "Username" from Account Name textbox	1. Data is copied successfully		Pass					
18579_5	Check Paste keyboard, right click works with Password field	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a> There is a copied text			Pass	Pass					
			1. In the textbox of the field "Password", right click and choose paste	1. Data is pasted successfully		Pass					

18579_6	Check Copy keyboard, right click works with Password field	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Copy "Username" from Account Name textbox	1. Data is copied successfully		Pass					
18579_7	Check the User Name placeholder, or delete it when clicking the UserName textbox	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Click the User Name textbox	1. The "User Name" placeholder is dismissed		Pass					
18579_8	Check the Password placeholder, or delete it when clicking the Password textbox	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Click the Password textbox	1. The "Password" placeholder is dismissed		Pass					
18579_9	UI check button Login in web	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Check position of the button	1. On Login screen, show button Sign in		Pass					
			1. Check label of the button	1. The button's name is Sign in		Pass					
			1. Check Icon of the button	1. The icon is suitable for Sign in		Pass					
18579_10	Check that the "Login " button changes color when the mouse is down	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Focus mouse to "Login" button	1. The " Login " button changes color (highted)		Pass					
18579_11	Check password shows dots when entering	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. Input data password field	1. Password shows dots when entering		Pass					
18579_12	Check function login works properly	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Fail			Pass		
			1. On Login page, input data "Username" textbox as "pham.hue@kloon.vn"	1. "pham.hue@kloon.vn" is shown on "Username" textbox area		Pass			Pass		
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area		Pass			Pass		
			3. Click "Login" button	3. Redirect to Home page		Fail		#19076	Pass		
			4. On any page, Select Logout button	4. Redirect to Login page		Pass					
18579_13	Check validate Username field when input data invalid (data not exist on DB)	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. On Login page, input data "Username" textbox as "pham.hue@gmail.com", not exist on db	1. "pham.hue@gmail.com" is shown on "Username" textbox area		Pass					
			2. Input data "Password" testbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. " Can not identity user " is shown		Pass					

18579_14	Check validate Username field when input data invalid (data as null)	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. On Login page, input data "Username" textbox as null	1. "" is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "The email is required" is shown		Pass					
18579_15	Check validate Username field when input data invalid (data as number)	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. On Login page, input data "Username" textbox as "7798"	1. "7798" is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Email invalid" is shown		Pass					
18579_16	Check validate Username field when input data invalid (data as character special)	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. On Login page, input data "Username" textbox as "l@\$%^&>"	1. "l@\$%^&>" is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Email invalid" is shown		Pass					
18579_17	Check validate Username field when input data invalid (data as link URL)	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. On Login page, input data "Username" textbox as " <a href="https://www.24h.com.vn/">https://www.24h.com.vn/</a> "	1. " <a href="https://www.24h.com.vn/">https://www.24h.com.vn/</a> " is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Email invalid" is shown		Pass					
18579_18	Check validate Username field when input data invalid (data as HTML)	Open link : <a href="http://rethink.kloon.vn:6996/login-form">http://rethink.kloon.vn:6996/login-form</a>			Pass	Pass					
			1. On Login page, input data "Username" textbox as "<h1> Hello, abc</h1>"	1. "<h1> Hello, abc</h1>" is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					

			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Email invalid" is shown		Pass					
18579_19	Check validate Username field when input data invalid (input over maxlength)	Open link : http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On Login page, input data "Username" textbox over maxlength as "abcdefghijklmnopqrstuvwxyzabcdefghijklmnopqrstuvwxyzabcdefghijklmnopqrstuvwxyz....." is shown on "Username" textbox area	1. "abcdefghijklmnopqrstuvwxyzabcdefghijklmnopqrstuvwxyzabcdefghijklmnopqrstuvwxyz....." is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area as dots		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Can not identify user " is shown		Pass					
18579_20	Check validate Password field when input data invalid (data not exist on db)	Open link : http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On Login page, input data "Password" textbox as "7798", not exist on db	1. "7798" is shown on "Password" textbox area as dots		Pass					
			2. Input data "Username" textbox as "pham.hue@kloon.vn"	2. "pham.hue@kloon.vn" is shown on "Username" textbox area		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Wrong password" is shown		Pass					
18579_21	Check validate Password field when input data invalid (data as null)	Open link : http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On Login page, input data "Password" textbox as null	1. "" is shown on "Password" textbox area		Pass					
			2. Input data "Username" textbox as "pham.hue@kloon.vn"	2. "pham.hue@kloon.vn" is shown on "Username" textbox area		Pass					
			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "The password is required" is shown		Pass					
18579_22	Check validate Password field when input data invalid (input over maxlength)	Open link : http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On Login page, input data "Password" textbox over maxlength as "abcdefghijklmnopqrstuvwxyzabcdefghijklmnopqrstuvwxyzabcdefghijklmnopqrstuvwxyz....." is shown on "Password" textbox area	1. "....." is shown on "Password" textbox area		Pass					
			2. Input data "Username" textbox as "pham.hue@gmail.com"	2. "pham.hue@kloon.vn" is shown on "Username" textbox area		Pass					

			3. Click "Login" button	3. Login unsuccessfully		Pass					
				3. "Wrong password" is shown		Pass					
18579_23	Check function clear data when reset/ Refresh the screen	Open link : http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On Login page, input data "Username" textbox as "pham.hue@kloon.vn"	1. "pham.hue@kloon.vn" is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area		Pass					
			3. Reset/ Refresh the screen	3. When reset / refresh the screen, password, username must be clear		Pass					
18579_24	Check User login from a 2-tab browser	Open link Tab1 :http://rethink.kloon.vn:6996/login-form Open link Tab 2:http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On tab 1, Input Username, Password is valid, Click Login button	1. Login successfully		Pass					
			2. On tab 2, Input Username, Password is valid, Click Login button	2. if generates 2 session is error		Pass					
18579_25	Check User login 2 accounts on the same browser, previous login session must end	Open link Tab1 :http://rethink.kloon.vn:6996/login-form Open link Tab 2:http://rethink.kloon.vn:6996/login-form			Pass	Pass					
			1. On tab 1,Login with Account A, Click Login button	1. Login successfully		Pass					
			2. On tab 2,Login with Account B, Click Login button	2. Login successfully		Pass					
			3. Re-open tab 1	3. Previous login session must end		Pass					
18579_26	Check Login successfully with account as Admin	Open link : http://rethink.kloon.vn:6996/login-form Existing account with role admin "admin@kloon.com"			Pass	Pass					
			1. On Login page, input data "Username" textbox as "admin@kloon.com"	1. "admin@kloon.com" is shown on "Username" textbox area		Pass					
			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area		Pass					
			3. Click "Sign in" button	3. Login successfully		Pass					
				3. Left menu is shown, Include: - Home - User - Project - Evaluation - Criteria		Pass					
18579_27	Check Login successfully with account as user	Open link : http://rethink.kloon.vn:6996/login-form Existing account with role user "user@kloon.com"			Pass	Fail			Pass		
			1. On Login page, input data "Username" textbox as "user@kloon.vn"	1. "user@kloon.com" is shown on "Username" textbox area		Pass			Pass		

			2. Input data "Password" textbox as "123456"	2. "123456" is shown on "Password" textbox area		Pass			Pass		
			3. Click "Sign in" button	3. Login successfully		Pass			Pass		
				3. Left menu is shown, Include: - Home - User - Project - Evaluation - Criteria		Fail		#19080	Pass
